1. Introduction and welcoming

One more year, the Rally Islas Canarias returns as one of the biggest events of the year on the island of Gran Canaria and throughout our archipelago. This automotive event with which we represent Spain in the calendar of the FIA European Rally Championship - the second most important event in the world after the World Rally Championship - is an event that, edition after edition, gathers thousands of fans in the kerbs.

It is a source of enormous pride, that in addition to all those people who vibrate live with the competition, this rally opens a window for millions and millions of viewers around the world to know our wonderful landscapes and the passion we put to make events such as the Rally Islas Canarias, a reference at an international level

According to the report produced by Nielsen Sports for the FIA European Rally Championship, our event reached an audience last year of 25.29 million viewers worldwide. This rally that now reaches 42 editions was the one that generated the most interest among the media of the eight events that formed the European calendar last year and it was also the one that obtained the highest advertising value. All these information fill us with arguments when defending and boasting that the Rally Islas Canarias, one of the most important events of all those held in our territory.

Passion, sacrifice and professionalism are the ingredients that this Organizing Committee contributes to a recipe in which the warmth of our fans and the spectacular natural sceneries that the island of Gran Canaria provides us. Of course, all these positive data would be impossible if we were not meeting point of championships such as the FIA ERC, the national rally and the regional Canary. The challenge now is to continue growing on all fronts that encompasses a career like this and, believe me, with that goal we have worked on the 42nd edition that is just around the corner.

Of course, all these positive details would be impossible if we were not meeting point of championships such as the FIA ERC, National and Regional rallies. The challenge now is to continue growing on all fronts that attempt a race like this one, and, believe me, with that goal we have worked on the 42nd edition that is just around the corner.

Welcome to our rally, your rally, and enjoy it.

President of the Organizing Committee of the Rally Islas Canarias

20. Information about Gran Canaria

Climate in Gran Canaria

The Gran Canaria's Climate is characterized by an average annual temperature between 18 and 25°C, with an estimated annual rate of 2.700 hours of sunlight, and a fresh and humid wind, coming from the Azores' Anticyclone, the trade winds.

Due to the unusual relief of the island there can be found a great variety of microclimates. On the southern slopes of the island, in coastal areas, the climate is dry and sunny almost all year round. In areas of higher altitude, the influence of the sea is reduced and the clouds are detained by the mountains; that produces great variations of temperature from the temperature of Midlands or valleys and subtropical forests to the highest areas, where the temperature can reach 0° C. This allows people to enjoy completely contrasted climates in two different areas of the island.
